# Table of Contents

1 Introduction

2 Preliminaries
   2.1 Notation ........................................... 5
   2.2 Generalized $\ell^p$-spaces ......................... 6
   2.3 Dimension theory ................................ 9
   2.4 Erdős type spaces and almost zero-dimensionality ........ 10
   2.5 Submeasures, measures and ideals .................. 14
   2.6 Trees and $\mathbb{R}$-trees ....................... 18

3 Semi-continuous Functions .......................... 21
   3.1 Graphs and almost zero-dimensionality .............. 21
   3.2 Controlled results for Lelek functions ............. 22
   3.3 Control and additional stratifications ............. 28
   3.4 Topologies generated by LSC functions ............. 31

4 The Small Inductive Dimension .................... 37
   4.1 The dimension $\text{ind}$ for Erdős type spaces ....... 37
   4.2 The dimension $\text{ind}$ for ideals $\mathcal{I}_\kappa$ .......... 41
   4.3 The dimension $\text{ind}$ for end-point sets of $\mathbb{R}$-trees .... 47
   4.4 One-point connectifications and fixed points ....... 49

5 Nonseparable Complete Erdős Spaces ............... 53
   5.1 Erdős type spaces with closed sets $E_\alpha$ ........ 53
   5.2 Erdős type spaces with complete sets $E_\alpha$ ........ 57
   5.3 Dimension and the main classification ............. 61
   5.4 Instability of complete Erdős type spaces .......... 65

6 Nonseparable Erdős Spaces ....................... 69
   6.1 Erdős type spaces with $F_{\sigma\delta}$-subsets $E_\alpha$ .... 69
   6.2 Erdős type spaces with zero in each set $E_\alpha$ isolated .... 73
   6.3 Infinitely many first category sets $E_\alpha$ ........ 78
Table of Contents

7  Submeasures on Uncountable Cardinals 83
   7.1  Kadec submeasures ........................................ 83
   7.2  Submeasures and complete Erdős type spaces .......... 88

8  End-point Sets of Nonseparable $\mathbb{R}$-trees 95
   8.1  Representations in nonseparable $\mathbb{R}$-trees ........... 95
   8.2  End-point sets and universality ............................ 99
