# Table of contents

**Chapter 1**  
Introduction and outline of the thesis  

**Chapter 2**  
Methods  

**Chapter 3**  
Superiority of skinfold measurements and waist over waist-to-hip ratio for determination of body fat distribution in a population-based cohort of Caucasian Dutch adults  

**Chapter 4**  
Microvascular function has no menstrual-cycle-dependent variation in healthy ovulatory women  

**Chapter 5**  
Obese but not normal-weight women with polycystic ovary syndrome are characterized by metabolic and microvascular insulin resistance  

**Chapter 6**  
Insulin-induced capillary recruitment is impaired in both lean and obese women with PCOS  

**Chapter 7**  
Greater arterial stiffnes in Polycystic Ovary Syndrome (PCOS) is an obesity-, but not a PCOS-, associated phenomenon  

**Chapter 8**  
General discussion  

**Summary**  

**Samenvatting**  

**Dankwoord**  

**Curriculum Vitae**
