Table of contents

Chapter 1 General introduction 9

Chapter 2 Genetic profiling of a distant second glioblastoma multiforme after radiotherapy: recurrence or second primary tumour? 39

Chapter 3 Absence of the MGMT protein as well as methylation of the MGMT promoter predict the sensitivity for temozolomide 51

Chapter 4 Differential radiosensitising potential of temozolomide in MGMT promoter methylated glioblastoma multiforme cell lines 69

Chapter 5 Valproic acid sensitises human glioma cells for temozolomide and γ-radiation 87

*Accepted for publication in Journal of Neuro-Oncology*

Chapter 6 Anti-tumour effects by a trimodal combination of temozolomide, meloxicam and X-rays in cultures of human glioma cells 103

Chapter 7 General discussion 121

Chapter 8 Summary / Samenvatting 131

Abbreviations 137
