ACKNOWLEDGMENT

Thank God, finally, I finished my research and thesis on schedule. During this hard work I really needed for helps, supports and encouragements. There were so many persons and institutions I would like to express my gratitude to. This was not meant to be a long list, but it is not long enough to reflect the great support and encouragement I received during my work.

Firstly, I would like to express my gratitude and appreciation to Professor Anjo J.P Veerman, my supervisor, who spent so much time for guiding me to conduct the research and write this thesis. I do really appreciate your willingness to tutor me and edit my papers with constructive comments. I know it takes a lot of your time to improve my English and to make my papers much better. I remember you gave me a small book how to write a good paper. Your other support being proud with my work, really make me confident that all my work will be beneficial for me, my institution and especially for leukemic patients.

I would also like to gratefully acknowledge to Prof DR. Sutaryo for believing and giving me, a socio-pediatric, an opportunity to conduct a research in pediatric-oncology area, presenting me to Prof Anjo J.P Veerman and supporting me for finishing the research and this thesis.

I am deeply indebted to Prof. Djauhar Ismail, my supervisor as well as my senior, for supporting and giving the opportunity to take my doctoral program. I do really appreciate your willingness to take over all my duty when I was in Amsterdam.

To Saskia Mostert, thank you so much for your very nice collaboration. We are not only a twin PhD but also a twin sister. We are a good twin, support each other, and make things easier. You did not only help me for editing and improving my English but also giving me a warm hospitality during my study in Amsterdam. Together with your family, Oma, Opa, Marcel, and your children, I felt being at home.

To Chad M Gundy, thank you very much for your helping and tutoring me how to do statistical analysis and also improving my English. I hope we still have opportunity to continue this wonderful collaboration.

I would also like to gratefully acknowledge to the Pediatric Department Faculty of Medicine, Gadjah Mada university and the Department of Pediatric VUmc for the opportunity to pursue this study. I am honored to thank to Dutch Cancer Society (KWF) and Stichting Ontwikkelingssamenwerking VU Medisch Centrum (SOVu) for financial supporting this research and the promotion. My sincere gratitude is also due to Estella Fonds and especially to Mr Rudolf de Graaf and Martine for chemotherapy donation. My sincere thank are also due to Annette Hues, Sandra Biemans, Sigrid Bruinisma. Thank you very much for your supporting in secretarial and administrative work, and also for many other things during my study.

To Hemato-oncology team in Yogyakarta; Pak Pujo, mbak Mulat, mas Eddot, Pak Harto, mas Pur, mbak warsih, mbak kiki thank a lot for very good collaboration and supporting the research. I hope and believe we will do the best for the patients.

My thank goes also to all patients who participated in this study. and also to parents organization especially bu Helmi and Pak Eko for their experience and contribution in development of parental education program.

To my colleagues in the Pediatric Department, Faculty Medicine, Gadjah Mada University, especially Pediatric Social: dr Soeroyo, Bu Gamayanti, bu Yemimah, and mbak Kiki, thank you for all support, in understanding and taking care of my work whenever I was in Amsterdam.

To Cinung, Jati, Manou, and Victoria thanks a lot for your assistance conducting the research. Mas Pur, again, thanks very much for providing the patients data.

I am indebted to Indonesian families in Amsterdam, especially Keluarga Pak Dedi Syamsudin, Om Wongso dan tante Tine, Mbak Lina, bu Hasrho, Mariet, Sannie, member of PPME Amsterdam and many others for their warm hospitality and providing tasteful Indonesian foods. Thank you for helping me to forget the loneliness.

To Indonesian students in Amsterdam: Mbak Maya, Yeti, mas Teguh, mbak Rina, mbak Yayah, mbak Neni, Lukman, Agung and many others, thank you very much for being such wonderful friends, and encouraged each other to fight our homesickness.

To my parents, Opa, Oma Ichwan and my late mother in low, oma Lien, thank you very much for all your pray, support and encouragements my live and my work. My thank goes also to my late sister Sita, my brother Prana, and other members of the family: Danang, dik Reni, mas Nardi, mbak Nanik, Om Pie, mbak Etik, mang Eyeng, mbak Elvi dan all nieces and nephews.

Last but not least, to my husband, yayah Yussi, my children bang Ihsan and
mbak Hasna (kakak tubies). I do not know how to thank you all for your believing, understanding, and patience.

*This thesis is dedicated to childhood ALL patients for better survival*
