List of Figures vii

Introduction 1
- Outline and main results 3
- A note on publications 5

Part 1. Preliminaries 7

Chapter I. Multicomplexes and Stanley–Reisner rings 9
- Multicomplexes 9
- Polarization 15

Chapter II. Equivariant chain complexes and regular abelian covers 21
- Equivariant chain complex and regular abelian covers 21
- Classifying spaces 24

Chapter III. The moment-angle construction and diagrams of spaces 31
- Generalized moment-angle complexes 31
- Diagrams of spaces 40

Part 2. Generalized Davis–Januszkiewicz spaces 43

Chapter IV. Regular abelian covers of GDJ-spaces and their homology 45
- GDJ-spaces 45
- Homology of regular covers of GDJ-spaces 50

Chapter V. Davis–Januszkiewicz spaces and monomial algebras 61
- Davis–Januszkiewicz spaces 61
V.2. Davis–Januszkiewicz spaces as homotopy fibers 66

Part 3. Further applications 73

Chapter VI. Quasi-toric manifolds and small covers 75
   VI.1. Toric spaces 75
   VI.2. Real quasi-toric manifolds as GDJ-covers 82

Chapter VII. Small covers of low dimension 87
   VII.1. Real quasi-toric manifolds of dimension 2 and 3 87
   VII.2. Real quasi-toric manifolds over the dodecahedron 90
