CONTENTS

Chapter 1: General introduction and Outline of the thesis 9

Chapter 2: The human liver clears both asymmetric and symmetric 35
dimethylarginine
published in: Hepatology 2005;41:559-565

Chapter 3: The transplanted liver graft is capable of clearing 51
asymmetric dimethylarginine
published in: Liver Transplantation 2004;10:1524-1530

Chapter 4: TIPS placement increases arginine/ADMA ratio in patients 67
suffering from liver cirrhosis
submitted for publication

Chapter 5: Modulation of asymmetric dimethylarginine in critically ill 81
patients receiving intensive insulin treatment: a possible
explanation of reduced morbidity and mortality?
published in: Critical Care Medicine 2005;33:504-510

Chapter 6: No compensatory upregulation of placental 101
dimethylarginine dimethylaminohydrolase activity in
preeclampsia
published in: Gynecologic and Obstetric Investigation 2006;62:7-13

Chapter 7: Summary and Conclusions 117

Chapter 8: Samenvatting en Conclusies 127

Chapter 9: Appendices: List of Publications 141
