Table of Contents

Chapter 1  General Introduction & Thesis Outline  9

PART I  MYOCARDIAL PERFUSION AND ENERGETICS IN PATIENTS WITH HYPERTROPHIC CARDIOMYOPATHY

Chapter 2  Relation of Coronary Microvascular Dysfunction in Hypertrophic Cardiomyopathy to Contractile Dysfunction Independent from Myocardial Injury.  
*Am J Cardiol 2011; 107:1522-8*

Chapter 3  Determinants of Myocardial Energetics and Efficiency in Symptomatic Hypertrophic Cardiomyopathy.  

Chapter 4  Carriers of The Hypertrophic Cardiomyopathy MYBPC3 Mutation are Characterized by Reduced Myocardial Efficiency in The Absence of Hypertrophy and Microvascular Dysfunction  
*Eur J Heart Fail 2011; in press*

PART II  EFFECTS OF SEPTAL ABLATION ON MYOCARDIAL PERFUSION AND ENERGETICS

Chapter 5  Effects of Alcohol Septal Ablation on Coronary Microvascular Function and Myocardial Energetics in Hypertrophic Obstructive Cardiomyopathy.  
*Am J Physiol Heart Circ Physiol 2011; 301:H129-37*

Chapter 6  Right Ventricular Oxidative Metabolism and Energetics in Patients with Hypertrophic Cardiomyopathy and Effects of Alcohol Septal Ablation.  
*J Card Fail 2011; 17:827-31*
PART III  TECHNICAL ASPECTS OF MYOCARDIAL PERFUSION
AND METABOLIC IMAGING

*J Nucl Cardiol 2010; 17:264-75*

*Nucl Med Commun 2011; 32:59-62*

Chapter 9  General Discussion (adapted from review article: Coronary Microvascular Function, Myocardial Metabolism, and Energy Efficiency in Hypertrophic Cardiomyopathy - New Insights from Positron Emission Tomography. *Submitted*)
