CONTENTS

VOORWOORD 9
chapter 1 General Introduction 13

PART 1 TUBERCULOUS MENINGITIS 21

chapter 2 Twenty Years of Pediatric Tuberculous Meningitis: a Retrospective Cohort Study in the Western Cape of South Africa 23
chapter 3 Animal Models to Study Tuberculous Meningitis 43
chapter 4 A New Murine Model to Study the Pathogenesis of Tuberculous Meningitis 57

PART 2 IMMUNOGENETICS OF MENINGOCOCCAL AND PNEUMOCOCCAL MENINGITIS 67

chapter 5 Genetic Variation of Innate Immune Response Genes in Invasive Pneumococcal and Meningococcal Disease Applied to the Pathogenesis of Meningitis 69
chapter 6 Single Nucleotide Polymorphisms in TLR9 are Highly Associated with Susceptibility to Bacterial Meningitis in Children 101
chapter 7 Toll-Like Receptor 9 Polymorphisms are Associated with Severity Variables in a Cohort of Meningococcal Meningitis Survivors 117
chapter 8 Single Nucleotide Polymorphisms in Innate Immune Response Genes Affect the Susceptibility to Meningococcal Meningitis: Genetic Traits and Pathway Analysis 133
chapter 9 Polymorphisms in Toll-like Receptors 2, 4, and 9 are Highly Associated with Hearing Loss in Survivors of Bacterial Meningitis 149
chapter 10 General Discussion 169
Summary 185
Samenvatting 191
