## Contents

Abbreviations 8

**Chapter 1**  
Introduction 11

**Chapter 2**  
*In vivo* measurement of T$_3$-dependent transcription activity 35

**Chapter 3**  
Left-ventricular remodeling following myocardial infarction is associated with a cardiomyocyte-specific hypothyroid condition 51

**Chapter 4**  
Effects of exercise training on LV function and post-MI remodeling: role of type III deiodinase? 77

**Chapter 5**  
Type III deiodinase expression during early post-MI remodeling and its regulation 91

**Chapter 6**  
Early post-MI induction of type III deiodinase expression is associated with increased HIF-1 signaling 113

**Chapter 7**  
Cardiac induction of type III deiodinase in human ischemic heart disease 129

**Chapter 8**  
Summary and general discussion 143
