CONTENTS

Chapter 1. Introduction 9

Anatomical study 23

Chapter 2. Extraforaminal ligaments of the human lumbar spinal nerves 25

Chapter 3. Extraforaminal ligaments of the human thoracic nerves 37

Chapter 4. Extraforaminal ligaments of the human cervical nerves 51

Biomechanical Study 65

Chapter 5. Lumbar extraforaminal ligaments act as a traction relief and prevent spinal nerve compression 67

Chapter 6. Thoracic extraforaminal ligaments prevent spinal nerve compression 81

Chapter 7. General discussion 97

Chapter 8. Summary and Conclusions 107
