Development and evaluation of an intervention to promote sports participation and physical activity in children.

Judith de Meij
This thesis presents the stepwise development, effectiveness and feasibility of the JUMP-in intervention. The JUMP-in programme is financially supported by the Larger City Policy fund of Amsterdam. The pilot study was supported financially by the Public Health Fund (Fonds OGZ) and the Ministry of Health, Welfare and Sport. Part of the work for this thesis is part of the ENERGY project. The ENERGY project is funded by the Seventh Framework Programme (CORDIS FP7) of the European Commission, HEALTH (FP7-HEALTH-2007-B). In addition, part of the work for this thesis was financially supported by the Netherlands Organization for Health Research and Development (ZonMw) and the World Cancer Research Fund.

Financial support by the Dutch Heart Foundation for the publication of this thesis is gratefully acknowledged.
