Minimally Invasive Surgical skills training,
*Learning, Assessment & Validation*

CONTENTS

Chapter 1  General Introduction

Chapter 2  Residents' open knot techniques evaluated, *basic skills tested*

*Journal of Obstetrics and Gynaecology Research 2013 May;39(5):1030-6*

Chapter 3  Voluntary autonomous simulator based training in minimally invasive surgery, residents' compliance and reflection

*Journal of Surgical Education 2012 Jul;69(4):564-70*

Chapter 4  Evaluation of a technical skills training program in surgical residents

Chapter 5  Mapping the maze of minimally invasive surgery simulators

*Journal of Laparoendoscopic & Advanced Surgical Technics 2012 Jan-Feb;22(1):51-60*

Chapter 6  Validation of a new box trainer-related tracking device: *the TrEndo*

*Surgical Endoscopy 2012 Aug;26(8):2346-52*
Chapter 7  Learning curve on the TrEndo laparoscopic simulator compared to an expert level

*Surgical Endoscopy* 2013. Aug;27(8):2934-9

Chapter 8  Objective versus subjective assessment of laparoscopic skill

*Minimal Invasive Surgery* 2013, accepted for publication

Chapter 9  Discussion

Chapter 10  Summary

Chapter 11  Samenvatting
