Contents

CHAPTER 1  INTRODUCTION  9
1.1  Epothilones – History, Biological Activity and Structure  9
1.2  General Retrosynthetic Analysis of Epothilones  11
1.3  Overview of Published Total Syntheses of Epothilone A and B  13

CHAPTER 2  RETROSYNTHETIC ANALYSIS  55

CHAPTER 3  SOUTHERN HALF SYNTHESIS  59
3.1  C3-C6 Building Block Synthesis  59
3.2  C1-C6 Building Block Synthesis  61

CHAPTER 4  NORTHERN HALF SYNTHESIS  65
4.1  General Aspects on Northern Half Synthesis using Nerol as Starting Material  65
4.2  Synthesis of Tributyl-(2-methyl-thiazol-4-ylmethyl)-phosphonium chloride  65
4.3  Chain Extension Chemistry at C14  66
4.4  Establishing the Desired C7-C9 Properties  72
4.5  Completion of the Thiazole Side-Chain-Connected Northern Half  78
4.6  Alternative Synthetic Route to Intermediate Alcohol 265  81
4.7  Stereochemistry at C8  82
4.8  Chemical Resolution of the C15 Stereocenter  83

CHAPTER 5  MACROALDOL STRATEGY  89
5.1  Macroaldol-based Synthesis with C15-racemic Northern Half  89
5.2  Macroaldol-based Synthesis with defined C15-Stereochemistry  91
