# CONTENTS

Chapter 1  
Introduction and outline of the thesis  

Part I: Iron deficiency in pulmonary hypertension: causes and consequences

Chapter 2  
Iron deficiency is common in idiopathic pulmonary arterial hypertension  
*Eur Respir J* 2011; 37: 1386-1391  

Chapter 3  
Iron deficiency in systemic sclerosis patients with and without pulmonary hypertension  
Appendix  
*Rheumatology (Oxford)* 2013; In press  

Chapter 4  
Right ventricular oxygen supply parameters are decreased in human and experimental pulmonary hypertension  
Appendix  
*J Heart Lung Transplant* 2013; 32: 231-240  

Chapter 5  
Treatment of iron deficiency in pulmonary hypertension  
Appendix I  
Appendix II  
Submitted  

Part II: Increasing insight in pathogenesis and monitoring of pulmonary hypertension

Chapter 6  
Reversibility of the monocrotaline pulmonary hypertension rat model  
*Eur Respir J* 2013; 42: 553-556  

Chapter 7  
The interventricular septum in pulmonary hypertension does not show features of right ventricular failure  
Submitted  

Chapter 8  
Pulmonary 2-deoxy-2-[18F]-fluoro-D-Glucose uptake is low in treated patients with idiopathic pulmonary arterial hypertension  
*Pulm Circulation* 2013; In press  

Chapter 9  
Conclusions and future perspectives  

Chapter 10  
I. Summary  
II. Nederlandse samenvatting
