Contents

CHAPTER 1
General introduction 9

CHAPTER 2
The prevalence of hypothyroidism after treatment for laryngeal and hypopharyngeal carcinomas: are autoantibodies of influence?
Acta Oto-Laryngol 2007;127:312-317 33

CHAPTER 3
Detecting hypothyroidism after treatment for laryngeal or hypopharyngeal carcinomas: a nationwide survey in The Netherlands
Eur Arch Otorhinolaryngol 2009;266:713-718 47

CHAPTER 4
Paratracheal lymph node dissection does not negatively affect thyroid dysfunction in patients undergoing laryngectomy
Eur Arch Otorhinolaryngol 2010;267:807-810 61

CHAPTER 5
The effect of substitution therapy on symptoms in patients with hypothyroidism following treatment for laryngeal and hypopharyngeal carcinomas
Acta Otorhinolaryngol Ital 2013;33:236-242 73

CHAPTER 6
A prospective longitudinal study on endocrine dysfunction following treatment of laryngeal or hypopharyngeal carcinoma
Oral Oncol 2013;49:950-955 89

CHAPTER 7
General discussion, future perspectives, summary and conclusions 107
