CONTENTS

Chapter 1  General introduction 9

PART I  Evaluation of autonomic function in the perioperative setting

Chapter 2  Level of agreement between heart rate variability and pulse rate variability in healthy individuals 21

Chapter 3  Reproducibility of non-standardized autonomic function testing in the preoperative assessment screening clinic 33

PART II  Modulation of autonomic function during myocardial blood flow measurements

Chapter 4  Perioperative myocardial perfusion: An anesthesiologists’ concern? 47

Chapter 5  Contrast-enhanced ultrasound for myocardial perfusion imaging 59

Chapter 6  General anesthesia with sevoflurane decreases myocardial blood volume and hyperemic blood flow in healthy humans 75

To the Editor: The Effect of Sevoflurane on Coronary Flow Reserve 92
In Response 94

Chapter 7  Effect of thoracic epidural anesthesia on myocardial blood flow and microvascular responsiveness 97

Chapter 8  Myocardial blood flow under general anesthesia with sevoflurane in type 2 diabetic patients: a pilot study 115

Chapter 9  General conclusions and discussion 133

Appendix  English summary 153
Nederlandse samenvatting 157
