TABLE OF CONTENTS

CHAPTER 1  General introduction  9

CHAPTER 2  Assessing heterogeneous distribution of blood flow and metabolism in the heart  17

CHAPTER 3  Myocardial O$_2$ consumption in porcine left ventricle is heterogeneously distributed in parallel to heterogeneous O$_2$ delivery  35

CHAPTER 4  Regional sympathetic denervation affects the relation between canine local myocardial blood flow and oxygen consumption  63

CHAPTER 5  Heterogeneous oxygen delivery to consumption matching during graded coronary stenosis in the porcine left ventricle.  83

CHAPTER 6  Endotoxemia decreases matching of regional blood flow and O$_2$ delivery to O$_2$ uptake in the porcine left ventricle  113

CHAPTER 7  Computational estimation of tricarboxylic acid cycle fluxes using noisy NMR data from cardiac biopsies  137

Summary and conclusions  163
