TABLE OF CONTENTS

Chapter 1 General introduction 9

Chapter 2 NOD2 improves barrier function of intestinal epithelial cells via enhancement of TLR responses 39

Chapter 3 Colonic epithelial cells direct the differentiation of myeloid cells via the transport of TLR ligands 61

Chapter 4 TLR2-induced G-CSF stimulates the differentiation of Ly6C+ monocytes 85

Addendum Secretome analysis of TLR2-stimulated and unstimulated Flt3L bone marrow cultures 105

Chapter 5 Excreted/secreted *Trichuris suis* products reduce barrier function and suppress inflammatory cytokine production of intestinal epithelial cells 115

Chapter 6 The identification and developmental requirements of colonic CD169+ macrophages 133

Chapter 7 General discussion 153

Chapter 8 Nederlandse samenvatting 173
