van de Faculteit der Geneeskunde
op vrijdag 29 mei 2015 om 11.45 uur
in de aula van de universiteit,
De Boelelaan 1105

door

Nicole Martine Francis van Gerven
geboren te Geldrop

VRIJE UNIVERSITEIT
promotor: prof.dr. C.J.J. Mulder

copromotoren: dr. G. Bouma
dr. C.M.J. van Nieuwkerk
“Creating a new theory is not like destroying an old barn and erecting a skyscraper in its place. It is rather like climbing a mountain, gaining new and wider views, discovering unexpected connections between our starting points and its rich environment. But the point from which we started out still exists and can be seen, although it appears smaller and forms a tiny part of our broad view gained by the mastery of the obstacles on our adventurous way up”

- Albert Einstein (1879-1955)
