Contents

Chapter 1  General introduction and outline of the thesis ................. 9

Chapter 2  Viability tested with dobutamine stress .......................... 15
echocardiography and prognosis early after acute myocardial infarction: A meta-analysis

Ramon B. van Loon, Gerrit Veen, Martijn W. Heymans, Albert C. van Rossum

*J Clin Exp Cardiology* 2011, S:5

Chapter 3  Early and long-term outcome of elective stenting .......... 33
of the infarct-related artery in patients with viability in the infarct-area: Rationale and design of the Viability-guided Angioplasty after acute Myocardial Infarction-trial (VIAMI-trial)

Ramon B. van Loon, Gerrit Veen, Otto Kamp, Jean G.F. Bronzwaer, Cees A. Visser, Frans C. Visser

*Current Controlled Trials in Cardiovascular Medicine* 2004, 5:11

Chapter 4  Improved clinical outcome after invasive ...................... 49
management of patients with recent myocardial infarction and proven myocardial viability:
Primary results of a randomized controlled trial (VIAMI-trial)

Ramon B. van Loon, Gerrit Veen, Leo H.B. Baur, Otto Kamp, Jean G.F. Bronzwaer, Jos W.R. Twisk, Freek W.A. Verheugt, Albert C. van Rossum

*Trials* 2012, 13:1

Chapter 5  Long-term follow-up of the viability guided ................. 67
angioplasty after acute myocardial infarction (VIAMI) trial

Ramon B. van Loon, Gerrit Veen, Leo H.B. Baur, Jos W.R. Twisk, Albert C. van Rossum

*International Journal of Cardiology* 2015, 186: 111-116
