ten overstaan van de promotiecommissie
van de Faculteit der Gedrags- en Bewegingswetenschappen
op vrijdag 27 mei 2016 om 13.45 uur
in de aula van de universiteit,
De Boelelaan 1105

door

Astrid Johanna Annie Lubeck

geboren te Breda
promotor: prof. dr. J.E. Bos
copromotor: dr. J.F. Stins
# Table of contents

**Chapter 1**  
Introduction  

**Chapter 2**  
Motion in images is essential to cause motion sickness symptoms, but not to increase postural sway  

**Chapter 3**  
Cinerama sickness and postural instability  

**Chapter 4**  
Equally moved and not really sick from viewing 2D and 3D motion stimuli on a TV screen  

**Chapter 5**  
Framing visual roll-motion affects postural sway, the subjective visual vertical and motion sickness  

**Chapter 6**  
The effect of optokinetic stimulation on perceptual and postural symptoms in visual vestibular mismatch patients  

**Chapter 7**  
Interaction between depth order and density affects vection and postural sway  

**Chapter 8**  
Summary and discussion
