Contents

Chapter 1
GENERAL INTRODUCTION
Objective and outline of the thesis

Chapter 2
ORIGINAL ARTICLE
The Effect of Surface Electric Stimulation of the Gluteal Muscles on the Interface Pressure in Seated People With Spinal Cord Injury

Chapter 3
SYSTEMATIC REVIEW
Effects of electrical stimulation on risk factors for developing pressure ulcers in people with a spinal cord injury: a focussed review of literature
Christof AJ Smit, Šonja de Groot, Janneke M Stolwijk-Swuste, Thomas WJ Janssen. AJPMR; accepted 12-02-2016.

Chapter 4
ORIGINAL ARTICLE
Effects of electrical stimulation-induced gluteal versus gluteal and hamstring muscles activation on sitting pressure distribution in persons with a spinal cord injury

Chapter 5
ORIGINAL ARTICLE
Prolonged electrical-stimulation induced gluteal and hamstring muscle activation and sitting pressure in spinal cord injury: effect of duty cycle

Chapter 6
ORIGINAL ARTICLE
Gluteal Blood Flow and Oxygenation During Muscle Activation vs. Pressure Relief Movements in Wheelchair Users with a spinal cord injury.

Chapter 7
ORIGINAL ARTICLE
Feasibility and effects of overnight electrical stimulation in people with spinal cord injury

Chapter 8
GENERAL DISCUSSION
From anecdotal case report to the new knowledge gained by these studies.
