# TABLE OF CONTENTS

**CHAPTER 1:**
General Introduction and outline.

**CHAPTER 2:**
Worse breast cancer prognosis of BRCA1/BRCA2 mutation carriers: what’s the evidence? A systematic review with meta-analysis.

**CHAPTER 3:**
BRCA1 and BRCA2 germline mutations panel testing on FFPE-tissue: characterization of a hospital-based cohort of young breast cancer patients.
*In draft.*

**CHAPTER 4:**
Breast cancer survival of BRCA1/BRCA2 mutation carriers in a hospital-based cohort of young women.
*Journal of the National Cancer Institute. 2017 Mar 9;109(8).*

**CHAPTER 5:**
The impact of breast-conserving surgery compared to mastectomy on survival of BRCA1/2 mutation carriers compared to non-carriers in a consecutive breast cancer series.
*Draft with co-authors.*

**CHAPTER 6:**
Impact of age at primary breast cancer on contralateral breast cancer risk in BRCA1/2 mutation carriers.

**CHAPTER 7:**
BRCA1 mutation location and risk of subsequent breast or ovarian cancer after breast cancer.
*In draft.*
CHAPTER 8: 304
Evaluation of the Dutch BRCA1/2 clinical genetic center referral criteria in an unselected early breast cancer population.
*European Journal of Human Genetics. 2015 May;23(5):588-95.*

CHAPTER 9: 332
General discussion and future perspectives

Chapter 10: 364
Summary 367
Nederlandse samenvatting 371
Curriculum Vitae 375
List of publications 377
Dankwoord 381

APPENDIX 1: 384
Association of the germline *MDM2* SNP309 and *TP53* R72P variants with breast cancer survival in specific tumor subgroups.
