

THE ROLE OF THE IMMUNE SYSTEM IN CERVICAL CANCER

Sanne Samuels

The work described in this thesis was performed at the Centre of Gynaecological Oncology Amsterdam, Amsterdam, the Netherlands and Leiden University Medical Centre, Leiden, the Netherlands.

The research was partially funded by the European Union's Seventh Program for research, technological development and demonstration; the work was partially supported by a research grant from the Dutch Cancer Society (KWF).

Financial support for publication of this thesis was kindly provided by the OOA Oncology Graduate School Amsterdam and the VU University.
