Contents

Chapter 1
Introduction 9

Chapter 2
The facts on the furious: a brief review of the psychology of trait anger 15

Chapter 3
Drawn to danger: trait anger predicts automatic approach behavior to angry faces 25

Chapter 4
Rage restrained: basic motivational states moderate the association between trait anger and state anger/aggression 41

Chapter 5
Motivational modulation of the hormone-aggression link: effects of approach/avoidance postures on the association between salivary testosterone/cortisol and aggressive impulses 71

Chapter 6
The effects of motivational training on state anger and aggressive impulses among people varying in trait anger 93

Chapter 7
A dark and peaceful place: ambient darkness lowers approach motivation and renders people with high dispositional anger less easily angered 125

Chapter 8
Does emotion regulation occur only inside people’s heads? Towards a situated cognition analysis of emotion-regulatory dynamics 141
