## Chapter 1
Introduction and Outline of this Thesis

### Part I: Biomarkers in Inflammatory Bowel Disease

#### Chapter 2
The Role of S100A12 as a Systemic Marker of Inflammation

#### Chapter 3
S100A12 in EDTA plasma – a Cautionary Tale

#### Chapter 4
Total Soluble and Endogenous Secretory Receptor for Advanced Glycation Endproducts (RAGE) in IBD

### Part II: Optimizing Thiopurine Therapy in Inflammatory Bowel Disease

#### Chapter 5
How I Treat my Inflammatory Bowel Disease-Patients with Thiopurines?

#### Chapter 6
Optimizing Thiopurine Therapy in Inflammatory Bowel Disease Among 2 Real-life Intercept Cohorts: Effect of Allopurinol Co-medication?

#### Chapter 7
Pharmacology of Thiopurine Therapy in Inflammatory Bowel Disease and Complete Blood Count Outcomes: a 5-year Database Study

#### Chapter 8
Clinical Value of Mercaptopurine After Failing Azathioprine Therapy in Patients With Inflammatory Bowel Disease

#### Chapter 9
Efficacy of Thioguanine Treatment in Inflammatory Bowel disease: a Systematic Review

#### Chapter 10
Methotrexate and Thioguanine Rescue Therapy for Conventional Thiopurine Failing Ulcerative Colitis Patients: a Multi-Center Database Study on Tolerability and Effectiveness
Chapter 11  Inter-Individual Variability of Serum Xanthine Oxidase Activity in Patients with Inflammatory Bowel Disease

Part III: Complications of Thiopurine Therapy

Chapter 12  6-Methylmercaptopurine-Induced Leukocytopenia During Thiopurine Therapy in Inflammatory Bowel Disease Patients

Chapter 13  Nodular Regenerative Hyperplasia Rarely Leads to Liver Transplantation: a 20-Year Cohort Study in All Dutch Liver Transplant Units

Chapter 14  Transient Elastography to Detect Liver Fibrosis in Patients with Inflammatory Bowel Disease

Chapter 15  General Discussion and Summary

Part IV: Appendices

Appendix I  Nederlandse Samenvatting

Appendix II  List of Contributing Authors

Appendix III  List of Publications

Appendix IV  Acknowledgements / Dankwoord

Appendix V  About the Author / Curriculum vitae
