ASSESSMENT OF EXISTENTIAL ANXIETY

Development and Validation of the Existential Concerns Questionnaire (ECQ)

Vincent van Bruggen works as health care psychologist at Mindfit (Dimence groep) and as lecturer at the University of Twente (the Netherlands).

This thesis approaches existential anxiety from the perspective of empirical psychology. It describes the development, validation and possible application of the Existential Concerns Questionnaire (ECQ). The relevance of the construct of existential anxiety is discussed and recommendations are given for mental health care and research.

Vincent van Bruggen works as health care psychologist at Mindfit (Dimence groep) and as lecturer at the University of Twente (the Netherlands).
