List of Abbreviation vi

Chapter 1 General introduction 9

Chapter 2 MRI in hypomyelinating leukodystrophies 31

Chapter 2.1 POLR3A and POLR3B mutations in unclassified hypomyelination 33

Chapter 2.2 4H Leukodystrophy: A Brain Magnetic Resonance Imaging Scoring System 47

Chapter 2.3 4H leukodystrophy: Lessons from 3T imaging 65

Chapter 2.4 Diffuse hypomyelination is not obligate for POLR3-related disorders 79

Chapter 3 Bone involvement in hypomyelinating leukodystrophies – an in vitro approach 93

Chapter 3.1 X-linked Hypomyelination with Spondylometaphyseal Dysplasia (H-SMD) associated with mutations in AIFM1 95

Chapter 3.2 Osteogenic transdifferentiation of primary human fibroblasts to osteoblast-like cells as a novel in vitro model for bone-related inherited disorders 129

Chapter 4 Discussion and Summary 157
