# Table of contents

Chapter 1: General introduction, objectives and outline 7

Chapter 2: Leukemia and brain tumors among children after radiation exposure from CT scans: design and methodological opportunities of the Dutch Pediatric CT Study

*European Journal of Epidemiology 2014; 29(4): 293-301* 29

Chapter 3: Trends and patterns of computed tomography scan use in the Netherlands: 1990-2012

*European Radiology 2017; 27(6): 2426-2433* 47

Chapter 4: Radiation exposure from pediatric CT scans and subsequent cancer risk in the Netherlands: the Dutch Pediatric CT Study Draft with coauthors 63

Chapter 5: Confounding of the association between radiation exposure from CT scans and risk of leukemia and brain tumors by cancer susceptibility syndromes

*Journal of Radiological Protection 2016; 36(4): 953-974* 95

Chapter 6: Is there unmeasured indication bias in radiation-related cancer risk estimates from studies of computed tomography?

*Accepted for publication in Radiation Research* 127

Chapter 7: Summary, general discussion and future perspective 147
