# Part One

## 1 Introduction .................................................. 15

1.1 Motivation .................................................. 15

1.2 Context ..................................................... 16

1.2.1 Active2Gether project .................................. 16

1.2.2 Physical (in)activity .................................. 17

1.2.3 Behavior change ....................................... 18

1.2.4 Computer technology and behavior change ............... 21

1.3 Research objective and research questions .................... 22

1.3.1 Research question 1 .................................. 22

1.3.2 Research question 2 .................................. 23

1.3.3 Research question 3 .................................. 23

1.3.4 Research question 4 .................................. 23

1.4 Methods .................................................... 24

1.4.1 Systematic reviews .................................... 24

1.4.2 Qualitative interviews .................................. 24

1.4.3 Computational modeling ................................ 25

1.4.4 User studies ........................................... 25

1.4.5 Data analysis ........................................... 26

1.4.6 Development and implementation ....................... 27

1.5 Contributions ............................................... 27

1.6 Thesis organization ......................................... 28

1.6.1 Thesis type ............................................. 28

1.6.2 Thesis outline ......................................... 28

1.6.3 Chapters .................................................. 29
# Part Two

## Review of behavior change techniques in apps

### 2.1 Background

### 2.2 Methods

- 2.2.1 Inclusion criteria
- 2.2.2 Search strategy
- 2.2.3 Screening procedure
- 2.2.4 The taxonomy
- 2.2.5 Scoring
- 2.2.6 Extracted data
- 2.2.7 Analyses

### 2.3 Results

### 2.4 Discussion

### 2.5 Conclusions

## Review of technological features in apps

### 3.1 Introduction

### 3.2 Methods

- 3.2.1 Identification
- 3.2.2 Screening
- 3.2.3 Scoring
- 3.2.4 Analyses

### 3.3 Results

- 3.3.1 Overview of included apps
- 3.3.2 Number of features per app
- 3.3.3 Number of apps per feature
- 3.3.4 Differences between types of apps
- 3.3.5 Correlation between number of features and usability rating

### 3.4 Discussion

### 3.5 Conclusion

## User preferences for apps that promote physical activity

### 4.1 Background

### 4.2 Methods

- 4.2.1 Design
- 4.2.2 Recruitment
- 4.2.3 Procedures
- 4.2.4 Data management and analysis
Part Three

5  Computational model of influences on physical activity  .............. 97
   5.1  Introduction  99
   5.2  Social cognitive computational agent model for exercise behavior  99
      5.2.1  Computational model of physical activity behavior .............. 100
      5.2.2  Expert opinion on the computational model ....................... 103
   5.3  Simulations  103
      5.3.1  Scenario 1–4: Default runs ................................. 104
      5.3.2  Scenario 5–28: Impediments only ............................ 104
      5.3.3  Scenario 29–52: Facilitators only ............................ 106
      5.3.4  Scenario 53–160: Impediments and facilitators ............... 107
   5.4  Verification of computational agent model  107
   5.5  Conclusions  109

6  Empirical validation of computational model  ....................... 111
   6.1  Introduction  113
   6.2  Computational model of psychosocial influences on physical activity  113
   6.3  Methods  117
      6.3.1  Data collection  ............................................ 117
      6.3.2  Data preprocessing ........................................... 118
      6.3.3  Analyses ....................................................... 118
   6.4  Results  119
   6.5  Discussion  120

7  Exploring parameter tuning for analysis of a computational model  . 125
   7.1  Introduction  127
   7.2  Background  127
      7.2.1  Parameter tuning ............................................. 127
      7.2.2  Simulated annealing ......................................... 128
8 Effect of changes in a social network on social contagion 143
  8.1 Introduction 145
  8.2 Behavior change interventions 146
    8.2.1 Traditional behavior change interventions 146
    8.2.2 Social network interventions 146
  8.3 Emotion contagion in social networks 147
    8.3.1 Emotion contagion model 147
    8.3.2 Selection of target connections 148
  8.4 Experiments 149
    8.4.1 Research questions 149
    8.4.2 Zachary social network 151
    8.4.3 Experimental framework 152
    8.4.4 Experiments and results 153
  8.5 Discussion 156
    8.5.1 Comparison of different strategies 156
    8.5.2 Optimal connection found 157
    8.5.3 Effect of connectedness 158
  8.6 Conclusions and future work 158

9 Analysis of social contagion of physical activity 163
  9.1 Introduction 165
  9.2 Social contagion model 165
  9.3 Experimental setup 167
    9.3.1 Physical activity level 168
12.4 Results
12.4.1 Social comparison preferences ................................. 219
12.4.2 Exploratory data analysis ........................................... 219
12.4.3 Hypothesis H1: Preferred upward, presented upward social comparison ................................. 219
12.4.4 Hypothesis H2: Preferred upward, presented downward social comparison ......................... 219
12.4.5 Hypothesis H3: Preferred downward, presented downward social comparison .................. 220
12.4.6 Hypothesis H4: Preferred downward, presented upward social comparison ....................... 221
12.4.7 Hypothesis H5: Preferred vs. non-preferred social comparison ........................................ 221
12.5 Discussion ................................................................ 223
12.6 Conclusion ................................................................ 224

Part Five

13 Description of the development and content of Active2Gether ........... 231
13.1 Introduction ................................................................ 233
13.2 Methods ................................................................... 235
13.2.1 Intervention development ............................................. 235
13.2.2 Target population ............................................................. 236
13.3 Development of the Active2Gether intervention ......................... 237
13.3.1 Step 1: Defining the intervention's primary and secondary objectives ...................... 237
13.3.2 Step 2: Defining the theoretical framework ................................................. 237
13.3.3 Step 3: Developing the Active2Gether intervention ............................................. 238
13.3.4 Step 4: Pilot testing .............................................................. 248
13.3.5 Step 5: Testing and evaluating the intervention .................................................. 248
13.4 Summary of the Active2Gether intervention ..................................... 248
13.5 Discussion ................................................................... 249

14 Description of the technical design of Active2Gether ..................... 263
14.1 Introduction ................................................................ 265
14.2 System description .................................................................. 266
14.2.1 Data collection ............................................................. 266
14.2.2 Architecture ................................................................. 267
14.2.3 Layout and visual design ..................................................... 269
14.2.4 Model-based reasoning ....................................................... 269
14.2.5 Selection and tailoring of coaching messages .............................................. 274
14.2.6 Social comparison ............................................................. 275
14.3 Discussion ................................................................... 277
14.3.1 Data collection ............................................................. 277
14.3.2 Architecture ................................................................. 278
14.3.3 Layout and visual design ..................................................... 278
14.3.4 Model-based reasoning ....................................................... 279
14.3.5 Selection and tailoring of coaching messages .............................................. 279

VI

Part Six

17 Discussion & Conclusion

17.1 Summary of research contributions

17.2 Discussion of research questions and results

17.2.1 Research question 1

17.2.2 Research question 2

17.2.3 Research question 3

17.2.4 Research question 4

17.3 Ethical aspects

17.3.1 Non-maleficence and beneficence

17.3.2 User-centrictiy

17.3.3 Multiple user groups

17.3.4 Privacy

17.3.5 Data protection

17.3.6 Security

17.3.7 Autonomy

17.3.8 Transparency

17.3.9 Equality, dignity and inclusiveness

17.4 Future work

17.5 Conclusion
