Table of contents

Chapter 1  General introduction 11

Chapter 2  Potential confounders of cognition 37
  2.1  The role of sleep on cognition and functional connectivity in patients with multiple sclerosis 39
  2.2  Fronto-limbic disconnection in patients with multiple sclerosis and depression 59

Chapter 3  Information processing speed 87
  3.1  Is impaired information processing speed a matter of structural or functional damage in multiple sclerosis? 89
  3.2  Information processing speed in multiple sclerosis: Relevance of default mode network dynamics 107

Chapter 4  Learning & memory 133
  4.1  Memory impairment in multiple sclerosis: Relevance of hippocampal activation and hippocampal connectivity 135
  4.2  The importance of hippocampal dynamic connectivity in explaining memory function in multiple sclerosis 151

Chapter 5  Predicting cognitive decline 177
  5.1  Predicting cognitive decline in multiple sclerosis: a 5-year follow-up study 179

Chapter 6  Summary, general discussion & future perspectives 211

Appendix  Nederlandse samenvatting 243
  Dankwoord 255
  Bibliography 263
  Curriculum Vitae 267
