## Contents

Chapter 1     General Introduction 9

**Part I: Social Mindfulness**

Chapter 2     Giving others the option of choice: 29
An fMRI study on low-cost cooperation

Chapter 3     Social Mindfulness and Psychosis: 53
Neural response to socially mindful behaviour in
first-episode psychosis and patients at clinical high-risk

**Part II: Trust**

Chapter 4     Boys vs. girls: 79
Gender differences in the neural development
of trust and reciprocity depend on social context

Chapter 5     Learning to trust: 109
Social feedback normalises trust behaviour in
first-episode psychosis and clinical high-risk

**Part III: Urbanicity**

Chapter 6     Trust and the City: 135
Linking urban upbringing to neural mechanisms
of trust in psychosis

Chapter 7     Neural correlates of urban risk environments 159

Chapter 8     General discussion 175

Chapter 9     Summary 195
Samenvatting (Dutch summary) 201
