Chapter 1 General introduction and thesis outline 9

PART 1: CHALLENGES IN HPV-BASED CERVICAL SCREENING

Chapter 2 Evaluation of the clinical performance of the HPV-Risk assay using the VALGENT-3 panel
Journal of Clinical Microbiology 2017; 55(12):3544-3551. 45

Chapter 3 Triaging HPV-positive women with normal cytology by p16/Ki-67 dual-stained cytology testing: Baseline and longitudinal data
International Journal of Cancer 2015; 136(10):2361-2368. 59

Chapter 4 Good performance of p16/Ki-67 dual-stained cytology for surveillance of women treated for high-grade CIN
International Journal of Cancer 2017; 140(2):423-430. 77

Chapter 5 HPV-positive women with normal cytology remain at increased risk of CIN3 after a negative repeat HPV test
British Journal of Cancer 2017; 117(10):1557-1561. 95

Chapter 6 Management of HPV-positive women in cervical screening using results from two consecutive screening rounds
International Journal of Cancer 2019; 144(9):2339-2346. 109

Chapter 7 Five-year cervical (pre)cancer risk of women screened by HPV and cytology testing
Cancer Prevention Research 2015; 8(6):502-508. 129
PART 2: FUTURE PERSPECTIVES IN HPV-BASED CERVICAL SCREENING

Chapter 8  Performance of human papillomavirus testing on self-collected versus clinician-collected samples for the detection of cervical intraepithelial neoplasia of grade 2 or worse: a randomised, paired screen-positive, non-inferiority trial

Chapter 9  Experience with HPV self-sampling and clinician-based sampling in women attending routine cervical screening in the Netherlands
*Submitted.*

Chapter 10  General discussion
HPV-based cervical screening: rationale, expectations and future perspectives of the new Dutch screening programme

Chapter 11  English summary
*Nederlandse samenvatting*

Chapter 12  List of co-authors
List of publications
PhD portfolio
